

**Nobody handed  
me a checklist.**

**I had to learn  
the hard way.**

The mistakes weren't always big.  
**But they were expensive.**

## THE SETUP

# If I were starting over, this is the checklist I'd keep from day one.

Save yourself the headaches.

**Your future self will thank you.**

## CHECK #1

# Business Registration

Make sure your business structure and registrations are properly set up from the beginning.

Protect your entity

## CHECK #2

# Licenses & Permits

---

Know which requirements apply to your business before they become an expensive problem.

Operate legally

## CHECK #3

# Tax Compliance

Stay ahead of deadlines, filings,  
and reporting obligations.  
Surprises here cost the most.

No surprise bills

## CHECK #4

# Financial Records

---

Maintain accurate bookkeeping and organized documentation.  
If you can't measure it, you can't manage it.

**Know your numbers**

## CHECK #5

# Contracts & Documentation

---

Protect your business with clear agreements and proper records. Verbal agreements don't hold up.

**Protect every deal**

# Compliance isn't exciting.

---

**But ignoring it gets expensive.**

Businesses that last build the right foundations early.
